Action Items:

New Business/Discussions

Announcements/Old Business:

Signage/Bench. City has not communicated a suitable placement for the bench installation, but Colleen is expected to have some options soon. The delay is due to suitable sites that meet sloping and ADA compliance. While the bench can be installed at any time, concrete can only be poured twice a year. The next cycle is October, otherwise the installation without an approved location will delay installation until 2025.

National Night Out

Colleen sent out a very detailed report on the event. LaRon mentioned from her registration feedback perhaps we could limit information collected to ensure privacy issues. Colleen said that name, address and email are used to verify residency as well as grow the e-blast list. This will be reviewed again before the next event.

There was also discussion on how the event could have new elements added by inviting service groups to face paint, create balloon art, crafts and fishing and photo booths. Music could be added through an app with a speaker plug in.
